Notes to condensed consolidated interim financial statements For the three months ended March 31, 2022 and 2021 (Expressed in United States Dellars)

(Expressed in United States Dollars)

1. Nature of operations and going concern

Euro Sun Mining Inc., together with its subsidiaries (collectively the "Company"), is a gold and copper exploration and development mining company focused primarily on its 100% owned Rovina Valley Project ("RVP") located in west-central Romania.

The Company was incorporated under the federal laws of Canada (the *Canada Business Corporations Act*) on January 17, 2003, is domiciled in Canada and its common shares are currently posted for trading and listed on the Toronto Stock Exchange ("TSX") under the symbol "ESM". The address of its registered office is 66 Wellington Street, West, Suite 5300, Toronto, Ontario, M5K 1E6.

These unaudited condensed consolidated interim financial statements were prepared on a going concern basis of presentation, which contemplates the realization of assets and settlement of liabilities as they become due in the normal course of operations for the next fiscal year. For the three months ended March 31, 2022, the Company incurred a net loss of \$2,615,034 and as at March 31, 2022, reported an accumulated deficit of \$245,508,363 and negative working capital of \$1,467,264 including \$1,269,987 in cash and cash equivalents. The Company has no current source of operating cash flow, and there can be no assurances that sufficient funding, including adequate financing, will be available to explore and develop its property and to cover general and administrative expenses necessary for the maintenance of a public company. The Company's status as a going concern is contingent upon raising the necessary funds through the issuance of equity or debt. These matters represent material uncertainties that cast significant doubt about the ability of the Company to continue as a going concern.

These condensed consolidated interim financial statements do not reflect adjustments to the carrying value of assets and liabilities or reported expenses and consolidated statement of financial position classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

The business of exploring for minerals and mining involves a high degree of risk. Few properties that are explored are ultimately developed into producing mines. Major expenses may be required to establish ore reserves, to develop metallurgical processes, to acquire construction and operating permits and to construct mining and processing facilities. The recoverability of the amounts shown as assets of the Company is dependent upon the Company obtaining the necessary financing to complete the exploration of its property, the discovery of economically recoverable reserves, any permitting required for mining activities, including environmental, and future profitable operations.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, indigenous claims, and non-compliance with regulatory, social and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts, political uncertainty and currency exchange fluctuations and restrictions.

Notes to condensed consolidated interim financial statements For the three months ended March 31, 2022 and 2021 (Expressed in United States Dollars)

2. Basis of presentation

The Company prepares its unaudited condensed consolidated interim financial statements in accordance with IFRS as issued by the IASB applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These statements are condensed and do not include all the information required for full annual financial statements and should be read in conjunction with the annual consolidated financial statements as at and for the year ended December 31, 2021.

These condensed consolidated interim financial statements were approved by the Board of Directors on May 12, 2022.

Basis of measurement

The condensed consolidated interim financial statements have been prepared under the historical cost convention, unless otherwise disclosed. The condensed consolidated interim financial statements have been prepared on an accrual basis except for cash flow information.

The functional currency of Euro Sun Mining Inc. is the Canadian dollar. The functional currency of SAMAX Romania Limited and SAMAX Romania S.R.L. is the U.S. dollar.

Basis of presentation

The condensed consolidated interim financial statements of the Company consolidate the accounts of Euro Sun Mining Inc. and its subsidiaries. All intercompany transactions, balances and unrealized gains and losses from intercompany transactions are eliminated on consolidation.

Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company and are de-consolidated from the date control ceases. The condensed consolidated interim financial statements include all the assets, liabilities, revenues, expenses and cash flows of the Company and its subsidiaries after eliminating inter-entity balances and transactions.

The Company's financial statements consolidate its subsidiaries which comprise the following at March 31, 2022 and December 31, 2021:

Name of entity	Country of incorporation	Ownership
SAMAX Romania Limited	Cyprus	100%
SAMAX Romania S.R.L.	Romania	100%

Significant accounting policies

The unaudited condensed consolidated interim financial statements were prepared using the same accounting policies and methods as those used in the Company's consolidated financial statements for the year ended December 31, 2021 with the exception of the adoption of amended standards below.

Amended accounting standards

IAS 37 – Provisions, Contingent Liabilities, and Contingent Assets ("IAS 37") was amended on January 1, 2022. The amendments clarify that when assessing if a contract is onerous, the cost of fulfilling the contract includes all costs that relate directly to the contract – i.e. a full-cost approach. Such costs include both the incremental costs of the contract (i.e. costs a company would avoid if it did not have the contract) and an allocation of other direct costs incurred on activities required to fulfill the contract – e.g. contract management and supervision, or depreciation of equipment used in fulfilling the contract. The amendments did not have a significant impact on the Company's financial statements.

IAS 16 – Property, Plant and Equipment ("IAS 16") was amended on January 1, 2022. The amendments introduce new guidance, such that the proceeds from selling items before the related property, plant and equipment is available for its intended use can no longer be deducted from the cost. Instead, such proceeds are to be recognized in profit or loss, together with the costs of producing those items. The amendments did not have a significant impact on the Company's financial statements.

Future accounting standards not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2023. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IAS 1 – Presentation of Financial Statements ("IAS 1") was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on January 1, 2023.

Notes to condensed consolidated interim financial statements For the three months ended March 31, 2022 and 2021 (Expressed in United States Dollars)

4. Deferred share units

Effective January 21, 2010, the Company established a Deferred Share Unit ("DSU") Plan for directors or officers of the Company or any affiliate thereof ("Eligible Person"). Prior to June 2021, a DSU issued was equivalent in value to one common share of the Company based on the five-day average trading price of the Company's common shares on the TSX immediately prior to the date on which the value of the DSU is determined. Upon termination, an eligible person receives a cash payment equivalent to the quoted market value of a common share on the termination date multiplied by the number of DSUs held by them. DSUs that will be settled in cash are recorded as a DSU liability on the consolidated statement of financial position and the liability is based on the weighted average trading price of the Company's common shares over the five trading days immediately preceding the date of the consolidated statement of financial position.

In June 2021, the Company approved a change to the DSU plan such that each DSU will provide the right to receive, on a deferred payment basis, a common share or cash equivalent of a common share in an amount equal to the fair market value of the common share at the applicable payment date at the discretion of the Board of Directors. As the Company expects to settle any such DSUs using common shares of the Company, any DSUs issued after June 2021, are recorded in contributed surplus on the consolidated statement of financial position.

The following transactions occurred during the years noted below:
